ABSIS

Working with education representatives and families and advising on the best school solution.

Choosing a school is a difficult and crucial decision. **ABSIS**, is the International Student Admissions Centre for many quality Australian and American schools. From enquiry all the way through to commencement of students, ABSIS handle all aspects of the admissions on behalf of each of the schools of the ABSIS group. ABSIS is not an overseas agent representative - however ABSIS encourages families to work with the school/s approved education agents overseas and can recommend an agent to the family, manages and

The Australian Boarding Schools International (ABSIS) Directors and the American Boarding Schools International (ABSIS) Directors are the admissions staff of the schools of ABSIS. The ABSIS admissions staff work closely with valued and approved school education agent representatives around the World.

All enquiries, applications and questions should be directed to the overseas education agent representative - and the agent will then pass all information about your child to us, the school Admissions Centre. We have over 20 years experience in admissions of school-leaving students. We are here to help.

WHY WORK WITH ABSIS AND AN EDUCATION AGENT?

With so many schools in Australia and America opening the doors to international students, it is essential you choose the right school for your child.

ABSIS schools are all quality schools and as the International Student Admissions Directors, we know each of our schools very well and our schools' have approved education agents to represent them and we, as the Admissions Centre welcome their assistance in working with us to facilitate your child's enrolment into our school.

Quality schools belong to the ABSIS Admissions Centre and these schools offer outstanding programs as well as excellent pastoral care, safety and supervision.

You can be comforted knowing that your child is supported and assisted with their homework and assignments, guided by careers counsellors and provided with first-class facilities. ABSIS help you and your education agency in deciding exactly the right school for your child and to answer all your questions.

THE ABSI INTERNATIONAL STUDENT ADMISSIONS CENTRE

ABSI works with families and recommends approved education agent representatives to families so as the family can be assisted within their own country, and to be able to translate all documentation that we send on behalf of our school as part of the enrolment procedure. Our school/s value the services of education agents and we work closely with the agent representatives in our role as the International Student Admissions Registrars for our schools. ABSI has been appointed by each of our schools to facilitate all aspects of admission from enquiry to commencement. Agents must work via the ABSI Admissions Centre.

WHAT DOES ABSI DO?

ABSI Directors of Enrolments staff handle every enquiry, every application and liaise with the family (usually via the education agency) to facilitate every aspect of the entry into the school for the student. ABSI staff are actually members of the admissions team of the school/s. ABSI is not an education agency but we work with the agency as the Admissions Directors. We discuss each applicant with our Principals and gather all the documents/forms back that we issue for completion. We issue the Offers of Place/Admissions Letters. Following acceptance and payment directly to the school, we then provide to the family, (again usually through the appointed education agent representative the paperwork required for the family to apply for their child's student visa.

We continue to work with the family/education agency in organising meet and greet by our school for a safe commencement following arrival in Australia. .

Whether you are a family, or an education agent representative, we at ABSI welcome your enquiry, to either enrol or to represent our schools. Please ensure all enquiries are directed to the ABSI International Admissions Centre as below.
